# Colors Shaped by Dosing Painting the Industry!

Organized by **CNG Expo Events** with 23 years of industry experience and a strong organizational infrastructure, **Powder Dosing Expo** will bring together professionals in the field to showcase the most innovative solutions in powder, granule, and solid material dosing technologies at **Hall 8** of the **Istanbul Expo Center (IFM)**.

Taking place on **17–19 June 2026**, concurrently with **paintistanbul 2026**, one of the region's most significant gatherings for the Paint and Coatings Industry, this prestigious exhibition will serve as a key platform where the latest innovations in dosing systems, automation equipment, and related technologies used in production processes are presented.

Join this important meeting point and discover the technologies that are shaping the future of the industry!

## Smart Solutions for Powders and Solids — All in One Place!

**Powder Dosing Expo** is a dedicated platform that brings together companies specializing in the processing, conveying, dosing, and automation of powders, granules, and solid raw materials with key industries.

Professionals from the paint, coatings, plastics, rubber, masterbatch, chemicals, food, pharmaceuticals, and related sectors will discover the latest dosing and processing technologies designed to enhance production efficiency at Powder Dosing Expo. The strong synergy between **paintistanbul** and **Powder Dosing Expo**, stemming from their shared visitor profiles of industry professionals, will offer attendees a comprehensive experience covering the entire production chain.

## Estimated Visitor Distribution by Target Sectors

## WHY EXHIBIT?

### ◆ Educational Panels & Conferences

During the exhibition, expert speakers in powder and solid raw material processing technologies will share their knowledge and experience in dedicated panels. These events will provide valuable insights into current trends, real-world applications, and technological advancements — offering participants a unique opportunity to deepen their industry knowledge.

### ◆ Collocated with paintistanbul

Held in cooperation with BOSAD, paintistanbul is the region's largest Paint and Coatings Exhibition, attracting over 9,000 industry professionals every edition. Its visitor profile consists of technical decision-makers from the paint, ink, plastics, pigments, and masterbatch sectors. Running concurrently and in the same venue with this major event, Powder Dosing Expo offers exhibitors the opportunity to reach new customer bases, expand their existing business networks, and connect directly with professionals from multiple industries.

### ◆ Showcase Your Technological Expertise

Present your products — such as dosing systems, conveyor solutions, analytical instruments, and automation systems — and position your brand based on technical competence.

### ◆ Connect with Global and Local Markets

Participants will have the opportunity to meet industry professionals not only from Türkiye but also from nearby regions, promoting their products and services directly to a targeted audience. The exhibition will serve as one of the most effective platforms to share the latest developments in the sector, establish new distribution and representation agreements, grow professional networks, and conduct market research.

# POWDER DOSING EXPO

**Powder Dosing Expo** is a technology platform designed to bring together all technical solutions required throughout the production journey — from the first contact with raw materials to the final product. These include dosing, conveying, mixing, storage, filling, packaging, and analysis systems, with a strong focus on enhancing efficiency, precision, safety, and sustainability in production processes.

For businesses working with powder - and granule - based raw materials, this exhibition addresses every step of the process chain. More than just a trade fair, it positions itself as a cross-industry hub for knowledge exchange, innovation, and collaboration.

## VISITOR PROFILE

- Paints and Coatings
- Chemicals
- Plastics, Rubber, Pigments Masterbatch
- Construction, Rocks and Minerals
- Environment and Recycling
- Cosmetics and Personal Care Products
- Food and Feed
- Pharmaceuticals
- Mechanical and Plant Engineering
- Energy
- Ceramics and Glass

## EXHIBITOR PROFILE

- Basic Processing and Synthesis
- Powder Conveying and Storage
- Transport and Logistics
- Raw Material Preparation and Dosing
- Particle Analysis and Characterization
- Manufacturing and Fabrication
- Production Environment
- Filling Technology
- Packaging and Labelling
- Laboratory, Research & Development
- Safety and Environmental Technologies
- Complementary Services
